

DEVA HOLDİNG A.Ş.

01.01.2024 - 30.06.2024 PERIOD

ACTIVITY REPORT OF THE BOARD OF DIRECTORS

(CONVENIENCE TRANSLATION OF INDEPENDENT AUDITOR'S REVIEW REPORT ON THE MANAGEMENT'S INTERIM PERIOD REPORT)

To the General Assembly of
Deva Holding A.Ş.

We have been charged with reviewing the consistency of consolidated interim financial information provided in Group's Management's interim period report dated 30 June 2024 with the reviewed consolidated interim financial statements. The Group Management is responsible for the Management's interim period report subject review. Our responsibility is to express a conclusion as to whether the financial information presented in the Management's interim period report are consistent with the reviewed consolidated interim financial statements and explanatory notes subject to Independent Auditor's Review Report dated 27 September 2024.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity. Our review involves the examination as to whether financial information provided management's interim period report are consistent with the reviewed consolidated interim financial statements and explanatory notes. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the consolidated interim financial information provided in the annual report and reviewed consolidated interim financial statements and explanatory notes, in all material respects, are not consistent.

DEVA HOLDING IN BRIEF

Established in 1958, DEVA Holding is among the well-**established pharmaceutical manufacturers in Türkiye**. With the main area of operations including manufacturing and marketing medicinal products for human use and raw materials, DEVA Holding also manufactures veterinary medicines, eau de Cologne, and medical ampoules.

DEVA Holding, which had its majority shares acquired by Eastpharma Ltd. in 2006, is pacing rapidly toward its goal of being the first choice by offering innovative and unique products with a high-quality experience by creating giant pharmaceutical brands in areas where it competes, in order to make healthy living accessible to everyone around the world. With the new therapies it offers, DEVA Holding makes difference by expanding its product diversity every year.

Currently, its product portfolio contains more than 650 products in 14 therapeutic areas, ranging from oncology to cardiology, respiratory system and ophthalmology, as well as medical devices.

With progressively expanding regional growth and export operations, DEVA Holding is the holder of 1,119 marketing authorizations in 65 countries, including the USA, Switzerland and Germany. Founded under the brand name of Devatis in Germany and then in Switzerland, the company received registration approval in 2018 and having been established in the USA under the same name, accelerated its activities.

DEVA Holding focuses on research and development to improve access to medicines for patients who need them, and all of its manufacturing facilities are certified compliant with the European GMP (Good Manufacturing Practice) and US FDA (Food and Drug Administration). DEVA Holding currently exports pharmaceuticals and pharmaceutical raw materials to more than 60 countries.

DEVA Holding develops high-quality and innovative products with its award-winning R&D center, DEVARGE, strong staff of welltrained employees who are experts in their respective fields, and full-fledged laboratories and manufacturing sites equipped with cutting-edge technology.

With its manufacturing capabilities, DEVA Holding has become the domestic corporation with the most **comprehensive production capabilities in Türkiye**. **Undertaking manufacturing operations at facilities in Çerkezköy and Kartepe, DEVA Holding holds an annual** output capacity of 620 million units of medicines. While producing for public health, DEVA Holding also adopts the understanding of sustainability for the effective and efficient use of resources, and considers environmental sensitivities in its activities. DEVA Holding manages human rights, occupational health and safety, energy efficiency and waste with great care, and continues its activities with the awareness of leaving a more livable world to future generations with its employees who possesses environmental awareness and sustainability approach.

Continuing to work for a healthy and sustainable future, DEVA Holding also supports social responsibility projects, especially in the fields of education, public health and the environment.

No audit was conducted in our company during the period of 01.01.2024 - 30.06.2024.

ASSESSMENT OF RISKS AND ADMINISTRATIVE BODY

Early Risk Detection Committee was formed to detect the risks that may compromise the existence early, growth and continuation of our company, to implement the necessary measures against the risks detected, and to perform studies to manage risks.

Financial Risks:

The operating capital need of our company is met by its shareholders' equity, short- and long-term bank loans in Turkish Lira and foreign currencies, and debt instruments. The increases in exchange rates and interests as a result of possibility of negative market conditions increase the financing costs of the company. Thus, due to economic and geopolitical developments both in the World and in our country, it is expected that the fluctuations in exchange rates and interest rates will adversely affect our profitability. For the purpose of managing the interest risks the company is exposed to, the gains and losses to occur in case of potential changes in interests are measured using sensitivity analyses on the basis of credit portfolio and cash flow projections. In addition, efforts are made to keep the floating rate loans among the total loans at a reasonable rate. Derivative products may be used for protection against exchange risks that may result from both bank loans in foreign currencies and purchases in foreign currencies.

Credit Risk of Customers:

The distribution and payment terms of trade receivables are of great importance in terms of risk management. The company tries to decrease receivable risk by performing its transactions only with credible parties, and wherever possible, obtaining securities. While transactions are carried out without any security with Group A customers, securities are requested from Group B and Group C customers such as bank letters of guarantee or collaterals. To minimize the credit risks the company is exposed to, the financial statuses, credit limits and securities of customers are monitored on a regular basis by the Credit Committee.

Strategic Risks:

The drug pricing policy set/to be set by the Ministry of Health (increase in institution discount rates and/or reduction in reference prices, non-revision of the reference exchange rate) may have negative effects on the industry, and consequently on our company. We try to overcome these negative effects by means of new markets, increasing product range, new sales policies, and effectively managed cost-limiting policies.

Operational Risks:

Operational risks are related with events affecting activities such as earthquakes, fire, and environmental accidents and smooth functioning of business processes. Insurable risks are revised on an annual basis and excluded by being insured.

The explanations regarding the developments that significantly affected the Company's activities in this period are presented above. For other information, you can access the Annual Report of 2023 at www.deva.com.tr
